## EDUCATION

### Nepal College of Information Technology, Balkumari *Bachelor in Computer Engineering*

2017- 2023

### Pokhara Engineering College, Pokhara *Diploma in Computer Engineering*

2014 - 2017

### Shree Shitaladevi Community Secondary School, Pokhara *SLC*

2004 - 2012

## PROJECTS

### Rental Services — *Team Leader*

A web application which provides facilities for renting properties like flat, vehicles, seminar halls, shows current property location using GPS, digital payments with Khalti API. - HTML/CSS/JavaScript, Flask, MySQL, Mapbox, Socket-io.

### Canteen Meal — *Team Leader*

A android application which is used to order foods in a canteen through mobile phones and users can use digital payments with Khalti API. - Android Studio, Java, firebase.

### Bus Reservation System — *Team Leader*

A web application which is used to book ticket of buses, here users can select seats and can view which seats are booked. - HTML/CSS/JavaScript, ASP.Net, C#, MySQL.

## EXPERIENCE

### Rara Labs — *Internship*

During my Rara Labs internship, I gained hands-on experience in Golang, REST API, GraphQL, PostgreSQL, Git and Github. This opportunity honed my backend development skills, enabling me to proficiently create RESTful APIs, work with GraphQL, manage databases, and collaborate effectively in a team environment.

## SKILLS

- Git, Github
- Golang
- Python
- C
- Django
- Flask
- Gorm
- GraphQL
- Rest API
- PostgreSQL
- MySQL

## LANGUAGES

- Nepali (Native)
- English (Fluent)
